"The Choral Repertoire and Resources Committee shall seek to improve the quality of choral performance and literature in the United States"

~Article XII, Section 4
ACDA Bylaws

R&R COMMITTEE PURPOSE AND FUNCTION

The Repertoire and Resources (R&R) areas provide support, vision, and resources for every major area of choral work. Committees play an important role in serving their respective choral genres. R&R committees provide:

- Repertoire and literature recommendations
- Documents and resources
- Leadership and information
- Networking among colleagues
- Maintenance of excellent standards among colleagues
- Professional development opportunities
- Promotion of choral music performance and participation

Repertoire and Resources Committee Coordinators and Chairs --- appointed at the national, division, and state levels --- serve conductors, teachers, composers, and constituencies who share similar interests. Chairs possess demonstrated expertise in a specific choral area and serve as leaders in the three primary efforts:

- Collaboration
- Communication
- Commitment

The Repertoire and Resources Committees have a vital role in ACDA. R&R Committee coordinators and chairs as well as their members provide resources that promote excellence in all aspects of the performance of choral music.

## Comments of State R&R Chair:
Repertoire and Standards: The heart of ACDA

Think back to your first experience with the American Choral Directors Association. Was it participating in an honor choir at a conference? Was it knowing a colleague who encouraged you to join? Was it perhaps your college professor who suggested you learn more about this organization? However you came to ACDA, you have found a resource which you most likely use on a regular basis. Whether it is networking, learning from a mentor, exposure to high quality repertoire or reading the Choral Journal online every month, ACDA is essential to many Choral professionals.

The examples listed above most likely have been connected with some member of the Repertoire and Standards committee as it is imbedded in the framework of the organization. Honor Choirs, the promotion of high quality literature, networking and a chance to be a servant leader are all ways R&S is integral to the ACDA. Most members first learned about ACDA through an event which had an R&S leader’s fingerprints on it in some way. Almost all of the current National Board members previously served as an R&S chair at some level. The Repertoire and Standards Committee provides invaluable resources to members across the country. It is the heart of the American Choral Directors Association.

The R&S committees have a vital role in the ACDA. R&S chairs and their members provide resources that promote excellence in all aspects of the performance of choral music.

At the 2012 Leadership Conference in Dallas, the discussion focused on the results of the recent Strategic Planning membership survey and how to move our organization forward. It included work on the ACDA mission statement and what it would mean to have all aspects align with our mission. Another part of the discussion included looking at all of the Standing Committees, including R&S, to see what improvements might be needed to keep ACDA relevant and moving into the future.

The discussion continued at the 2014 Leadership Conference in Salt Lake City, and the R&S committee had the opportunity to vision what an updated committee structure could look like. Many of the proposed changes below came from this brainstorming session. The following changes have been approved by the Executive Committee and National Board and were voted into the constitution in January 2016:

- Change committee name from Repertoire and Standards to Repertoire and Resources. Members currently serving in leadership positions feel “Repertoire and Standards” doesn’t state one of the most important responsibilities of the committee – serving as a resource for high quality materials, literature, performance standards and professional development offerings.

- Change the names of the following R&S Areas:
  - Youth and Student Activities to Student Activities
  - Ethnic and Multicultural to Ethnic Music
  - Show Choir to Contemporary Commercial
  - Male to Men

Current R & S leaders believe these names more closely reflect what is current in their respective areas.”
• Three Coordinators are named at the National level, one each to oversee Youth Choirs, Collegiate Choirs, and Lifelong Choirs.

• Each division and state shall name divisional R&R coordinators for not fewer than the four categories of Youth, Collegiate, Lifelong, and Repertoire Specific. It is further understood that divisions and states are encouraged to add specific R&R chairs of categories at their discretion. Suggested positions include (but not limited to):

- Boychoir
- Children’s and Community Youth Choir
- College and University
- Community
- Contemporary and Commercial
- Ethnic Music
- Junior High/Middle School
- Men’s Choirs
- Music in Worship
- Senior High Choirs
- Student Activities
- Two-Year College
- Vocal Jazz
- Women’s Choirs

At the division and state levels this gives more ownership by providing opportunities for certain areas which are flourishing. For example, if a state or division has a strong need for a barbershop R & R chair or another genre particularly important to the state or division, an additional R & R subcategory can be added.
• The R&R National Committee Chair will have oversight of the category of “Repertoire Specific”. The R&R National Committee Chair will continue to have oversight over the entire R&R committee including the three other coordinators.

• Coalesce Boychoir with Children and Community Youth and 2-year College with College and University.

(During the transition period, currently appointed R & S Chairs at each level will serve out his/her term.)

The current Repertoire and Standards Committee demonstrates the mission of the ACDA organization in the following ways: Performance, Education, Composition and Advocacy. This will not change. With the creation of new coordinators, it gives an opportunity for local control and involvement and more autonomy at the local level. This restructure helps make ACDA more prominent on the local level, makes an effort to include those that are not currently involved and provides increased leadership opportunities. It also gives some flexibility at the Division and State levels plus provides more support and presence at the National level. The new coordinator positions will provide more support for special projects and helps to create more focused groups within the leadership structure.

The idea of restructuring the Standing Committees, including R&S, has been discussed by members and leaders for years. Now is the time to take action and make those changes that must be made. The American Choral Directors Association began in 1959 and the Repertoire and Standards committee was started in the 1980’s. The organization has evolved in 30+ years, and we must keep current in order to be relevant.
